11.1 - continue to discuss way ahead for governance – what do we need; what actions are we going to take; who will be responsible. No Legislation is being submitted this session.
 11.2; 11.4 - SWIC contributes approximately 50 percent of effort toward SLIGP initiatives (47.99%).
 11.8,9,11 - The Office of Homeland Security with the SWIC continue working with partners to information, discussions, meetings, etc. The office will be supporting the Enterprise Technology Services Office with coverage analysis. ETS will survey the entire state but will concentrate on rural areas. With the lava eruption, there is a greater need to review response equipment for the Big Island. While in Guam at a FirstNet Meeting, the meeting focused on existing public safety operations on the island and aimed to identify communications challenges and current capabilities that could be augmented by a broadband network dedicated to public safety. There must be better collaboration related to technologies for the public safety community in the Pacific environments.

12. Personnel
12a. Staffing Table - Please include all staff that have contributed time to the project with current quarter's utilization. Please only include FTE staff employed by the state not contractors. Please do not remove individuals from this table.

No SLIGP funds were used during the quarter. The planned activities with federal, state, county representatives was planned as part of the SCIP Meetings conducted every two months. In that the SLIGP funds are so restrictive, no federal funds are used to support dual activities.

The communication discipline was tested from the lava, flooding and two hurricanes over the last months. ATT worked with the state on ensuring resources were in place.

The following initiative have been discussed as a way ahead for the months head. This hes areas will be part of the contract we want to complete but insufficient funding available at this time.

1. Develop a baseline of coverage of AT&T service for Oahu, Maui, Lanai, Molokai, Kauai and Hawaii Islands. Tests will be conducted in each county; update the baseline every 4-6 months to determine whether coverage has been extended based on AT&T network improvements. Develop a crowd source methodology for residents to participate in the coverage determination in future assessments after the base is created. This continues to be a priority and coordination with our Enterprise Technology Services Office. However, collaboration on the results is important.

2. Develop and implement an approach to survey state agencies and county first responders on applications used or desired. Determine to extent possible to which these applications can be shared, accented by FirstNet/AT&T, standardized and
