11a. Describe your progress meeting each major activity/milestone approved in the Baseline Report for this project; any challenges or obstacles encountered and mitigation strategies you have employed; planned major activities for the next quarter; and any additional project milestones or information.					
<p>The SIEC continues to meet on a quarterly basis with the last meeting taking place on February 3rd, 2017. The next scheduled SIEC Meeting will take place on May 12th, 2017. The SIEC Working Groups continue to meet mostly on a monthly basis, or whenever issues develop that require their attention. Meetings surrounding expected FirstNet deployment have included in the last quarter meetings with the New Hampshire Attorney's Office, The Governor's Office, and with representatives from Senator Hassan's Staff. Prior to and after the award made by FirstNet to AT&T to build the national core network, AT&T has met with New Hampshire on three different occasions.</p>					
11b. If the project team anticipates requesting any changes to the approved Baseline Report in the next quarter, describe those below. Note that any substantive changes to the Baseline Report must be approved by the Department of Commerce before implementation.					
No changes are expected.					
11c. Provide any other information that would be useful to NTIA as it assesses this project's progress.					
New Hampshire is looking forward to our continued association with NTIA and will continue our conversation regarding NTIA 2.0.					

11d. Describe any success stories or best practices you have identified. Please be as specific as possible.

New Hampshire has completed in the first quarter of 2017 a host of interoperability initiatives that will better serve first responders throughout the State. Recruit level training at the State's Police Academy and Fire Academy continues, In-Service Interoperability Training Module continues to be available for all first responders, and an Interoperability Table-top Exercise (TTX) was conducted that included the New Hampshire State Police, Massachusetts State Police, and police departments from Nashua, Manchester, and Concord. One of the results of this TTX will be to provide an Interoperable Template for Critical Incidents that can be utilized for all disciplines and jurisdictions throughout the State. FirstNet is addressed in all the aforementioned accomplishments and has become a critical component to our next generation communication network needs. As AT&T activates its resources in New Hampshire, New Hampshire will continue to work with FirstNet in its anticipated goals.

12. Personnel

12a. If the project is not fully staffed, describe how any lack of staffing may impact the project's time line and when the project will be fully staffed.
