11c. Provide any other information that would be useful to NTIA as it assesses this project's progress.

The State of Oklahoma has hired a full-time Program Coordinator to serve as the main point of contact and provide assistance to the SLIGP Project under the SPOC. The Program Coordinator serves as additional oversight to the consultants hired with SLIGP funds, manages the federal grant funds alongside Office of Management & Enterprise Services financial staff, and coordinates all outreach and education sessions held in Oklahoma through the SLIGP Project.

11d. Describe any success stories or best practices you have identified. Please be as specific as possible.

The State of Oklahoma has established a Tribal Advisory Committee to serve as the primary voice for the 39 federally recognized tribes, not just on broadband/LTE issues, but on all public safety communications in Oklahoma. Our initial meeting took place in August 2016 and included 15 different tribal entities in addition to liaisons from the Bureau of Indian Affairs, FirstNet, and the Oklahoma Secretary of State's Office. Future meetings will be held once a quarter.

12. Personnel

12a. If the project is not fully staffed, describe how any lack of staffing may impact the project's time line and when the project will be fully staffed. 🛛 🚺

The State of Oklahoma has not yet hired a Tribal Llaison to provide direct outreach and education to each of th 39 federally recognized tribes. We plan on hiring this position within 3 months and working to bring all 39 tribes into full participation with this initiative.
