### 11c. Provide any other information that would be useful to NTIA as it assesses this project's progress.

The OKPSBN has devoted funding in this quarter to better engage many of the Tribal Nations that were unable to provide coverage reviews during the data collection phase in previous years. The OKPSBN has been working with AT&T as well as our Tribal Nations to perform an additional 20 coverage reviews from tribes that had not previously submitted data to ensure their requests for coverage were taken into consideration by FirstNet and AT&T. This resulted in 35 out of 39 federally recognized tribes in Oklahoma being able to provide coverage information to FirstNet/AT&T which in turn allowed AT&T to update the coverage map on the state plan to better suit tribes in Oklahoma.

# 11d. Describe any success stories or best practices you have identified. Please be as specific as possible.

The State of Oklahoma received their initial FirstNet State Plan on June 19, 2017. Rather than attempt to perform multiple series of meetings with multiple types of stakeholders, the OKPSBN held a FirstNet State Plan Evaluation Retreat from June 27-29, 2017 and invited the SPOC Team, the OKPSBN Steering Committee, the OKPSBN Working Groups, and the Public Safety Communications Tribal Advisory Committee. During this retreat, representatives from FirstNet and AT&T were onsite to provide answers to questions regarding the State Plan Portal and send questions to upper level managers regarding issues found within the State Plan. This retreat was a great success and provided Oklahoma stakeholders the opportunity to evaluate the initial state plan and request changes from FirstNet based on this evaluation.
