Milestone activities:
 Several existing state employees continue to support SLIGP reports and FirstNet outreach activities, including administrative and financial support personnel, and the SPOC/SWIC. We intended that a project support position would also begin, but this position will not be able to start until additional guidance is received from FirstNet.

Other activities: We are relying on existing user information from our land mobile radio (LMR) system to determine potential National Public Safety Broadband Network (NPSBN) users and will widen our scope on in the future, through the distribution of surveys. Weekly updates and other information such as public notices received from FirstNet are forwarded to our planning group distribution list which numbers approximately 100 people.

11b. If the project team anticipates requesting any changes to the approved Baseline Report in the next quarter, describe those below. Note that any substantive changes to the Baseline Report must be approved by the Department of Commerce before implementation.

We anticipated developing and distributing a FirstNet factsheet, but have decided to rely on FirstNet material at this time to keep the message consistent regarding FirstNet activities.

11c. Provide any other information that would be useful to NTIA as it assesses this project's progress.

Our work this quarter focused on remaining plugged into workshops, webinars and conference calls. We remain actively engaged with Federal/state and local organizations and associations including FirstNet, NTIA, NASCIO, NASTD, RECCWG, NCSWIC and Region IV RECCWG.
