1. List t	the individual projects in	your appro	oved Project Plan						
	Project Type (Capacit	y	Project Deliverable Quantity	Total Federal	Total Federa	I Funding Amount expended	Percent of Total Fed	eral Funding	
	Building, SCIP Update	<u>></u> ,	(Number & Indicator	Funding Amount	at the end of	this reporting period	Amount expended		
	Outreach, Training et		Description)						
1	Stakeholder Meeting	S	3 meetings, 38 attendees						
2	Training Sessions		TBD (Phase 2)						
3	Broadband Conference	ces	5						
4	Staff Hires		2 hires at .10 each for .2 FTE						
5	Contract Executions		0						
6	Governance 2		2						
7	Education & Outreach		5						
	Materials								
8	Phase 2 Activities		N/A						

(5) Contract Executions. No progress on this as of yet.

(6) Governance. We held meetings of our Interoperability Governance in December and March. Broadband subcommittee and report from SLIGP workshop were official agenda items. In our correspondence to the First Responders, we solicited interest in participating on the broadband subcommittee, but had only two replies.

(7) Education & Outreach Materials. We have sent a statewide mailing to (1) First Responder Community (2) Utilities & Telco's in state. Have also set up (3) website (psbn.sd.gov), (4) a twitter feed @sdpsbn, (5) a Facebook page.

(8) Phase 2 Activities. Nothing authorized yet.

Page 1 of 4

11b. If the project team anticipates requesting any changes to the approved Baseline Report in the next quarter, describe those below. Note that any substantive changes to the Baseline Report must be approved by the Department of Commerce before implementation.

Depending upon how much and how fast we ramp up, we may need personal services dollars for a program manager. Right now we are using state funding as our part of the match to pay for the personal services hours we are utilizing.

11c. Provide any other information that would be useful to NTIA as it assesses this project's progress.

We have completed our contact list and have entered those in the CASM NG tool to allow mapping, mailing list generation, etc., To date we have around 900 entries in the database and have sent an approved correspondence out to first responder agencies as well as telco, utility, and power companies. From that same process we will be soliciting participation in our broadband subcommittee, which will reside under our Public Safety Communications Council, our interoperability governance for LMR

11d. Describe any success stories or best practices you have identified. Please be as specific as possible.

We are loading our entire user community into the CASM tool. OEC held a Broadband Workshop in South Dakota giving us access to the ESRI tools for broadband planning, and better prepare us for the process.

12. Personnel

12a. If the project is not fully staffed, describe how any lack of staffing may impact the project's time line and when the project will be fully staffed.

Even after the SLIGP workshop, our team still came back without a clear mission that would allow us to effectively go out to the first responder community individually and be an effective outreach program. Right now utilizing existing personnel, we are going to concentrate on getting on every state and local group meetings agenda we can and try to provide the outreach that way. Our original plan called for substantial expense for contractors and travel, which at this point we do not feel a good use of resources.

12b. Staffing Table -

	Job Title	FTE %	5	Project(s) Assigned				Change	
Statewide Proj	ject Coordinator	10	Provide oversight of all SLIGP project activities						
Financial Assis	stant		Provide	support for bi	udget mana	gement, p	rocurement, and proce	essing invoices

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a currently valid OMB control number. Public reporting burden for this collection of information is estimated to average 10 hours per response for the application process, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Michael Dame, Director, State and Local Implementation Grant Program, Office of Public Safety Communications, National Telecommunications and Information, U.S. Department of Commerce (DOC), 1401 Constitution Avenue, N.W., HCHB, Room 7324, Washington, D.C. 20230.
