

August 2, 2024 .

The Honorable Alan Davidson  
Assistant Secretary of Commerce  
for Communications and Information  
National Telecommunications and Information Administration  
U.S. Department of Commerce

**Re: Letter of August 2, 2024**

Dear Assistant Secretary Davidson,

Thank you for your letter dated August 2, 2024. We, of course, concur with it and we look forward to continuing our dialogue, per your letter. We have observed that our capped .com price increases have not always been passed through to benefit end-users and therefore we welcome an opportunity to have this important discussion. We are prepared to consider structures to address this and other issues, including ways to make .com pricing more predictable for the channel as part of it.

Sincerely,

D. James Bidzos  
President and CEO  
VeriSign, Inc.
