Subject: Request for Comments on the National Strategy to Secure 5G Implementation Plan
Date: Thursday, June 18, 2020 10:09:13 AM

To whom it may concern,

Please be advised that I am not in favor of a 5G technology rollout due to security, health and safety reasons.

5G is not beneficial to the general people. 5G is a control grid technology that will be used to control the people. The people did not ask for 5G technology. 5G is being forced upon the people by a select few. The select few are willing to hand out tons of money to put 5G technology in place. Naive opportunists and blind order followers will accept this money, building a 5G panopticon that the majority of society will be socially engineered to participate in. Please look up the definition of the word panopticon if you don't know it. 5G is about furthering technocracy, trans-humanism, surveillance and remote control of people. 5g is anti-freedom and those furthering its cause are participating in evil (knowingly or not). I plead with you to stop what you are doing and stand up for the people/freedom/humanity. If not for me, at least don't further enslave your own family.

Who am I? Just someone who deeply understands freedom, right vs wrong and cares about all of us.

For the betterment of all,

Dean Harding

PS 5G (microwave radiation, millimeter waves) causes health issues and the fact that it is digital technology means it will always be vulnerable to security attacks - but if that is all you are worried about, you are really missing the point above.
