[Docket Number: 180131107–8107–01]

RIN 0660–AA35

Revision to the Manual of Regulations and Procedures for Federal Radio Frequency Management

AGENCY: National Telecommunications and Information Administration, U.S. Department of Commerce.

ACTION: Final rule.

SUMMARY: The National Telecommunications and Information Administration (NTIA) is making certain changes to its regulations relating to the public availability of the Manual of Regulations and Procedures for Federal Radio Frequency Management (NTIA Manual). Specifically, NTIA is releasing an update to the current edition of the NTIA Manual, with which federal agencies must comply when requesting use of radio frequency spectrum. NTIA is making changes to the regulatory text to comply with the Incorporation by Reference formatting structure.

DATES: *Effective:* June 18, 2018. The incorporation by reference of certain publications listed in the rule is approved by the Director of the Federal Register as of June 18, 2018.

ADDRESSES: A reference copy of the NTIA Manual, including all revisions in effect, is available in the Office of Spectrum Management, 1401 Constitution Avenue NW, Room 1087, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:**Background**

NTIA authorizes the U.S. Government's use of radio frequency spectrum. 47 U.S.C. 902(b)(2)(A). As part of this authority, NTIA developed the NTIA Manual to provide further guidance to applicable federal agencies on the use of the radio frequency spectrum for radio transmissions for telecommunications or for other purposes. The NTIA Manual is the compilation of policies and procedures that govern the use of the radio frequency spectrum by the U.S. Government. Federal government

agencies are required to follow these policies and procedures in their use of spectrum.

Part 300 of title 47 of the Code of Federal Regulations provides information about the process by which NTIA regularly revises the NTIA Manual and makes public this document and all revisions. Federal agencies are required to comply with the specifications in the NTIA Manual when requesting frequency assignments. See 47 U.S.C. 901 *et seq.*, Executive Order 12046 (March 27, 1978), 43 FR 13349, 3 CFR 1978 Comp. at 158.

This rule updates § 300.1 of title 47 of the Code of Federal Regulations to specify the edition of the NTIA Manual with which federal agencies must comply when requesting frequency assignments. In particular, this rule amends the section by incorporating by reference the 2013 edition of the NTIA Manual, as revised through September 2017 and reformatting the structure of the section to comply with Office of the Federal Register formatting requirements. Upon the effective date of this rule, federal agencies must comply with the requirements set forth in the 2013 edition of the NTIA Manual, as revised through September 2017. The NTIA Manual is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by referring to Catalog Number 903–008–0000–8, and online at <https://www.ntia.doc.gov/page/2011/manual-regulations-and-procedures-federal-radio-frequency-management-redbook>. A reference copy of the NTIA Manual, including all revisions in effect, is available in the Office of Spectrum Management, 1401 Constitution Avenue NW, Room 1087, Washington, DC 20230, by calling Peter Tenhula on (202) 482–9142.

Paperwork Reduction Act

This action does not contain collection of information requirements subject to the Paperwork Reduction Act (PRA). Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the Paperwork Reduction Act unless that collection displays a currently valid OMB Control Number.

Executive Order 12866

This rule has been determined to be not significant for purposes of Executive Order 12866.

Administrative Procedure Act/Regulatory Flexibility Act

NTIA finds good cause under 5 U.S.C. 553(b)(3)(B) to waive prior notice and opportunity for public comment as it is unnecessary. This action amends the regulations to include the date of the most current edition of the NTIA Manual. These changes do not impact the rights or obligations to the public. The NTIA Manual applies only to federal agencies. Because these changes impact only federal agencies, NTIA finds it unnecessary to provide for the notice and comment requirements of 5 U.S.C. 553. NTIA finds good cause under 5 U.S.C. 553(d)(3) to waive the 30-day delay in effectiveness for the reasons provided above. Because notice and opportunity for comment are not required pursuant to 5 U.S.C. 553 or any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. Therefore, a regulatory flexibility analysis is not required and has not been prepared.

Congressional Review Act

The NTIA Manual provides for policies and procedures for federal agencies' use of spectrum. The NTIA Manual and the changes thereto do not substantially affect the rights or obligations of the public. As a result, this document is not a "rule" as defined by the Congressional Review Act, 5 U.S.C. 804(3)(C).

Executive Order 13132

This rule does not contain policies having federalism implications as that term is defined in Executive Order 13132.

I. Background

A. Notice of Proposed Rulemaking

On January 23, 2015, PHMSA published a notice of proposed rulemaking (NPRM) under Docket No. PHMSA-2013-0225 [(HM-218H); 80 FR 3787] that proposed amendments to update and clarify existing requirements of the Hazardous Materials Regulations (HMR; 49 CFR parts 171-180). Both the NPRM and the subsequent final rule—see Section I, Subsection B (“Final Rule”) of this rulemaking—are part of DOT’s Retrospective Regulatory Review (RRR) process designed to identify possible improvements to the regulations through the extensive review of both the HMR and previously-issued letters of interpretation. In addition, the NPRM proposed regulatory requirements in response to seven (7) petitions for rulemaking and two (2) National Transportation Safety Board (NTSB) Safety Recommendations.

B. Final Rule

On June 2, 2016, PHMSA issued a final rule titled, “Hazardous Materials: Miscellaneous Amendments (RRR),” under Docket No. PHMSA-2013-0225 [(HM-218H); 81 FR 35483] that made miscellaneous amendments to the HMR to update and clarify certain regulatory requirements. Based on an assessment of the proposed changes and the comments received, the June 2, 2016 final rule covered various topics including the following topics addressed in this rule:

- Emergency response telephone numbers
- Packaging instructions for certain shipments of nitric acid
- Test period extension to 10 years for certain MC 331 cargo tanks in dedicated propane delivery service
- Hazardous Materials Table revisions
- Pressure relief device testing for cargo tank motor vehicles
