Wooden Bedroom Furniture from the People's Republic of China: Extension of Time Limit for Final Results of Antidumping Duty New Shipper Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* May 26, 2010.

FOR FURTHER INFORMATION CONTACT: Howard Smith or Rebecca Pandolph, AD/CVD Operations, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-5193 or (202) 482-3627, respectively.

SUPPLEMENTARY INFORMATION:

Background

On March 3, 2010, the Department of Commerce ("Department") issued the preliminary results of the new shipper review of the antidumping duty order on wooden bedroom furniture from the People's Republic of China ("PRC") covering sales of subject merchandise made by Zhejiang Tianyi Scientific & Educational Equipment Co., Ltd. ("Zhejiang Tianyi") for the period January 1, 2009 through June 30, 2009. See *Wooden Bedroom Furniture from the People's Republic of China: Preliminary Results of Antidumping Duty New Shipper Review*, 75 FR 9581 (March 3, 2010). As explained in the memorandum from the Deputy Assistant Secretary for Import Administration, the Department has exercised its discretion to toll deadlines for the duration of the closure of the Federal Government from February 5, through February 12, 2010. See Memorandum to the Record from Ronald Lorentzen, DAS for Import Administration, regarding "Tolling of Administrative Deadlines As a Result of the Government Closure During the Recent Snowstorm," dated February 12, 2010. Thus, all deadlines in this segment of the proceeding have been extended by seven days. The current deadline for the final results of this review is currently May 24, 2010.

Extension of Time Limits for Final Results

Section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended ("Act"), and 19 CFR 351.214(i)(1) require the Department to issue the final results in

a new shipper review of an antidumping duty order 90 days after the date on which the preliminary results are issued. The Department may, however, extend the deadline for completion of the final results of a new shipper review to 150 days if it determines that the case is extraordinarily complicated. See section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2).

The Department finds that this new shipper review is extraordinarily complicated because of a recent filing which calls into question the accuracy and reliability of submissions in this review. In particular, the Department needs additional time to consider whether the information was properly filed and to consider any such information. Accordingly, we are extending the time for the completion of the final results of this review by 60 days, from the current due date of May 24, 2010 to July 23, 2010.

Dated: May 20, 2010.

This notice is published in accordance with section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2).

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

National Telecommunications and Information Administration

Broadband Researchers' Data Workshop

AGENCY: National Telecommunications and Information Administration, U.S. Department of Commerce.

ACTION: Notice of Public Meeting.

SUMMARY: The National Telecommunications and Information Administration (NTIA) will host a public meeting concerning the nature of data related to broadband Internet access and use that the agency collects, data needs of researchers, and future broadband research.

DATES: The meeting will be held on June 3, 2010, from 1 p.m. to 3 p.m. Eastern Daylight Time.

ADDRESSES: The meeting will be held at the U.S. Department of Commerce, 1401 Constitution Avenue, NW., Herbert C. Hoover Building, Room 4830, Washington, DC. (Please enter at 14th Street.) The disability accessible entrance is located at the 14th Street Aquarium Entrance. Any change in the location will be posted on NTIA's Web

site (<http://www.ntia.doc.gov>) prior to the meeting.

FOR FURTHER INFORMATION CONTACT: For further information regarding the meeting, contact James McConnaughey, NTIA, at (202) 482-3161 or JMcConnaughey@ntia.doc.gov.

SUPPLEMENTARY INFORMATION: President Obama has expressly committed to the expansion of advanced technology across the United States as a necessary part of the foundation for long-term economic stability and prosperity.¹ The increased availability and use of broadband technology is an integral part of the President's technology agenda. The National Telecommunications and Information Administration is the President's principal adviser on domestic and international telecommunications policies pertaining to the Nation's economic and technological advancement. In order to achieve the technology and broadband goals of the Administration, NTIA is working with the Federal Communications Commission (FCC), the Department of Agriculture's Rural Utilities Service (RUS), and other stakeholders to develop and implement economic and regulatory policies that foster broadband deployment and adoption. Current and detailed data by U.S. households' and persons' usage of and access to broadband is critical to allow policymakers not only to gauge progress made to date, but to identify problem areas.

Eight times since the early 1990s, the U.S. Commerce Department's Census Bureau has collected data based on questions that NTIA sponsored and developed (often in collaboration with the Department's Economics and Statistics Administration) to provide up-to-date information on the extent of the Nation's Internet adoption and the major reasons why current non-users choose not to adopt. Data have been generated by several demographic and geographic categories and must be weighted and appropriately aggregated before release. These various data, to the extent allowed under federal disclosure laws, are made publicly available for use by the research community to conduct economic, financial, demographic, and other studies. The purpose of the public meeting is to provide an opportunity for the research community to propose, with rationale, the type of Internet usage data that could be usefully collected through

¹ See Guiding Principles, "Innovation in the Economy: Drive Economic Growth and Solve National Problems by Deploying a 21st Century Information Infrastructure," <http://www.whitehouse.gov/issues/technology>.

scientific-based surveys conducted by the Census Bureau (e.g., the Current Population Survey Internet Use Supplement).

NTIA is authorized to conduct studies and evaluations concerning telecommunications research and development and for more than 15 years has collected and analyzed nationwide Internet data, including since 2000 usage of high-speed connectivity. These activities have provided essential data for prudent policymaking in this area, including providing the data to the research community whose work provides invaluable inputs for sound policies. NTIA currently collects broadband related data from several sources, as demonstrated in the agency's October 30, 2009, Broadband Data Transparency Public Workshop.²

Matters to be Considered:

The meeting will include a discussion of the following topics, including specific areas of inquiry:

1. Internet access at home and outside the home.
2. Internet use at home and outside the home.
3. Computer access at home and outside the home.
4. Computer use at home and outside the home.
5. Key demographic variables.
6. Key geographic variables.
7. Non-adoption issues: Internet.
8. Non-adoption issues: Computers.

The meeting will also seek input on:

A. The timing ("periodicity") of future data collections.

B. The data format preferred by researchers including those for distributing broadband-related data on the Web to promote maximum transparency for researchers and the interested public.

C. An updated version of the October 2003 Current Population Survey Computer and Internet Use Supplement survey instrument (pp. 8 through 23), <http://www.bls.census.gov/cps/computer/2003/quest2003.pdf>.

Specific information regarding the status of and data from specific applications for the Broadband Technology Opportunities Program (BTOP) and the State Broadband Data and Development Grant Program (State Broadband Data Program) will not be discussed at the meeting.

Time and Date: The meeting will be held on June 3, 2010, from 1 p.m. to 3 p.m. Eastern Daylight Time. The times and the agenda topics are subject to change. The meeting may be webcast. Please refer to NTIA's web site, <http://www.ntia.doc.gov>

² See <http://www.ntia.doc.gov/advisory/broadbanddata/>.

www.ntia.doc.gov, for the most up-to-date meeting agenda and webcast information.

Place: The meeting will be held at the United States Department of Commerce, 1401 Constitution Avenue, NW., Room 4830, Washington, DC. The meeting will be open to the public and press on a first-come, first-served basis. Space is limited. Attendees should bring a photo ID and arrive early to clear security. The public meeting is physically accessible to people with disabilities. Individuals requiring accommodation, such as sign language interpretation or other ancillary aids, are asked to notify Mr. McConnaughey at (202) 482-1880 or JMcConnaughey@ntia.doc.gov, at least five (5) business days before the meeting.

Dated: May 21, 2010.

Kathy D. Smith,

Chief Counsel, National Telecommunications and Information Administration.
